

ABOUT US

LEADER IN STEEL BUILDINGS

ProAm Steel is a leader in the design and manufacture of custom-engineered metal building systems for building contractors all over the U.S. With our many strategic plant locations and a coast-to-coast network of Authorized Builders, we efficiently service customers throughout North America and beyond.

- **Quality Control System, Timeline dedication**
- **Highly Professional Staff, Accurate Testing Processes**
- **Unrivaled workmanship, Professional and Qualified**

WHY WORK WITH US?

When you work with ProAm Steel, you're guaranteed to work with qualified metal building experts. We use only the most functional and economic steel framing systems developed by trusted engineers. Let us help you save on your next build by working with contractors directly to ensure the best lead-times for your project timeline. All of our drawings are in-house and carried out by experts in the field. At ProAm, you'll get competitive, factory-direct pricing you won't find anywhere else in the market.

As a fully custom steel building manufacturer, your possibilities with ProAm Steel are endless. Using the latest in design technology, your metal building will be custom engineered to achieve the optimal solution for you. Accuracy is our main focus and software is how we achieve that. You will have a complete set of approval drawings showing every dimension and measurement to ensure that you get exactly what you desire.

At ProAm Steel, we develop some of the most versatile, energy-efficient and cost-effective building solutions on the market today. We feature only the most innovative, high-performing, competitive products and technology. We pride ourselves in being a complete building manufacturer.

Our builders are some of the best in the industry and can turn your building concept into reality. Our projects range from industrial and commercial structures to custom buildings for the agricultural, community and warehouse/distribution.

ProAm Steel offers factory-direct pricing on our steel building kits and carry a large selection of metal building kit styles and colors. Using American labor, you can choose from many different steel frame systems that are customizable in size and color.

WHY BE A BUILDER

Working exclusively with ProAm Steel allows our builders access to a large network of contractors whose customer base is multi-state wide. Be a part of a group of business owners who have extensive experience in steel metal fabrication and sales.

- **Resources to help sell to customers**
- **Priority access to manufactured products and kits**
- **Network of professional contractors to help meet your customers**
